Master HEAT GUN

FAST HEAT Up To 1000°F

The handiest, quickest, safest way to get the quick instant heat needed for a thousand uses in the laboratory or for plant production. The Master Heat Gun delivers up to 1000° (F) without the dangers of open flame! Its many features include an adjustable air intake for controlling the air blast temperature; a double jacketed heater housing; a sturdy die-cast aluminum housing and an 8 ft. neoprene jacketed 3-wire cord and plug that is oil and grease resistant. Turbo type fan blade is efficient and quiet in operation. All models available for 115V or 230V operation. Shipping wt. 5 lbs.

IN ANSWER TO YOUR REQUEST FOR INFORMATION ABOUT THE MASTER

FLAMELESS ELECTRIC BLOW TORCH

Enclosed are catalog pages illustrating and describing the MASTER HEAT GUNS which are designed for intermittent use while held in one hand or while mounted on the stand provided. The MASTER AIR HEATER BLOWERS are built to operate continuously all day long.

Specifications and prices of our products are listed on the reverse side of our catalog pages.

Industrial concerns and laboratories located all over the United States, and in many foreign countries, are finding that these dependable products are the perfect answer where ever quick heat, without open flame, is required.

We urge you to try a MASTER HEAT GUN (flameless blow torch) in your own plant, in an actual production situation. We are willing to sell you the product of your choice with the understanding that you may feel free to return it for credit, within ten days after it reaches you, providing it does not serve your purpose. Of course, we welcome the opportunity to answer any specific questions you may have about a specialized application involving our products.

We look forward to receiving your purchase order and assure you that shipment will be made promptly.

Very truly yours,

MASTER APPLIANCE CORPORATION
